

Features & Benefits

The tools to help manage your finances, prepare for tax time and plan for the future.

Organise your finances

Quicken Personal gives you the tools you need to understand your finances. It will help you to see where your money is coming from and exactly where your money is going. Personal provides you with an accurate snapshot of your financial health at any time. Utilise Spending Reports and graphs to see where you're spending your money and how it impacts your net worth, and you can save all reports to PDF.

Stay on top of banking and bills

Track all your bank accounts, credit cards, income and expenses. You can also schedule bills and other recurring transactions, like direct debits and salary payments.

Managing loans is easy – home loans, car loans, personal loans etc. You can see how much you have paid off at any time – separating out the interest and principal. Even simulate additional payments to show how this will impact on the amount repaid as well as the length of the loan.

Prepare for tax time

Quicken Personal 2009 includes some great tax features that will make tax time less painful. Quicken Personal automatically categorises items in line with the relevant 'Tax Pack' questions, and generates reports to help you fill in your tax forms.

Plan for the future

Use the budgeting tools to help you save and plan for your future. Create realistic budgets based on previous years' figures and undertake 'scenario analysis' – for example, see what happens to your savings if you reduce your spending on eating out.

Use Quicken Personal's Mini reports and trend graphs to find out if you are within budget for a particular category with the click of a button.

Track interest-only loans

Have the Loans wizard guide you through the process of setting up a traditional bank loan or a more flexible interest-only loan.

Quicken[®]
Personal 2009

Features & Benefits

Vista™ Gadget

Stay up to date on your Scheduled Bills and transactions without having to remember to open Quicken, through the Vista™ Gadget. The Vista™ Gadget sits at the side of the Vista™ desktop space and will help you stay on top of scheduled transactions. (This feature is supported on Windows Vista™ only).

Quicken® Personal 2009

New Features

Personal Centre

A Personal Centre now houses all personal financial information and reports so you can easily access and track personal bank accounts, income and expenses.

Improved user interface

The new user interface allows for quicker access to your financial information from anywhere in Quicken Personal.

Savings Planner

Help plan your savings goals and track actual savings using the new Savings Planner. Simply enter your expected and actual expenditure and expenses for each category to see if you have met your saving goals over a set period.

Reckon Tools Backup

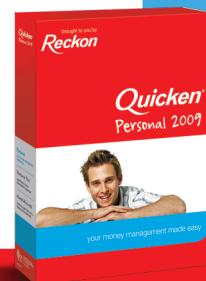

Reckon Tools Backup^ allows you to easily back up valuable company data and investment information directly through Quicken Personal to a reliable and secure online location.
